Armor Plate®
Pipe Wrap

Armor Plate, Inc.

P. O. Box 5625 Pasadena, TX 77508

Stress Engineering Services, Inc. (SES) performed testing for Armor Plate, Inc. on the Armor Plate® Pipe Wrap (APPW) system to validate the performance of APPW in reinforcing corroded pipelines to meet the design requirements of the ASME PPC-2-2008 Standard (specifically, Part 4: Nonmetallic and Bonded Repairs).

The results of the testing performed demonstrated that the Armor Plate® Pipe Wrap (APPW) repair system satisfies the requirements per ASME PCC-2, as well as meeting the intentions set forth in the ASME B31.4 (liquid) and B31.8 (gas) transmission pipeline codes for repairing corroded pipelines.
